SUMMARY

Machine Learning Engineer and Full-Stack Developer with production experience across agentic AI systems, deep learning, NLP, and computer vision, now leading technology strategy and delivery as Technical Team Lead for a real estate company. Builds end-to-end systems- from model training and fine-tuning to production deployment — using Django, FARM stack, and LangGraph-based agentic workflows. Delivered 6+ production systems including agentic RAG pipelines, a multi-tenant CRM platform, and AI-powered web applications serving real users at scale.

PROFESSIONAL EXPERIENCE

Technical Team Lead - Family Realtors PK

February 2026 – Present | Islamabad, Pakistan · Hybrid

- Designed and led development of the company's web presence, including familyrealtorspk.com, and an agentic multi-tenant CRM platform with role-based access control and Meta/Google Ads API integration
- Oversee planning and improvement of internal software systems, IT operations, and data workflows
- Work closely with the team to build practical technology solutions that support daily real estate operations end-to-end, spanning DevOps, infrastructure, and data analysis

Freelance Machine Learning Engineer — Self-Employed

March 2023 – February 2026 | Remote

- Developed and deployed production ML applications for clients across content generation, real estate, and data extraction domains
- Built agentic AI systems using LangGraph
- Engineered full-stack solutions with Django and the FARM stack
- Specialized in RAG systems, LLM fine-tuning, and end-to-end production deployments

Private Tutor — One-on-One, In-Person

2024 – February 2026 | Rawalpindi, Pakistan

- Delivered individualized tutoring in CCNA networking, data science fundamentals, and full-stack web development
- Taught advanced mathematics including calculus and linear algebra
- Designed customized learning plans and practical exercises to help students understand technical concepts and problem-solving methods

FEATURED PROJECTS

LinkedIn & Facebook Content Generator Web App

Jun 2025 – Aug 2025

Monolithic progressive web app built with Django and PostgreSQL. Complete agentic AI content generator using LangGraph, LinkedIn Developer API for posting, cron-based scheduling and notifications, and Google social authentication.

Agentic RAG System with Hybrid Search

Nov 2025 – Dec 2025

Production-ready agentic RAG application on the FARM stack with LangGraph-powered query routing. Self-hosted on Modal.com, serving Qwen 8B on L4 GPUs alongside BGE-Large embeddings and a BGE-Reranker for hybrid search. Google OAuth; containerized for Railway and Koyeb.

Production-Ready LinkedIn Scraper REST API

Nov 2025 – Dec 2025

REST API that extracts LinkedIn profile data in real time using persistent Chrome sessions with one-time authentication to bypass anti-bot measures, returning structured JSON over HTTP.

Agentic CRM for Real Estate Company

Aug 2025 – Sep 2025

FARM stack CRM with full role-based access control, the Claude API, and LangGraph. Cloudinary for image hosting, MongoDB Atlas as the database, WhatsApp and email (Resend) notifications for client and lead management.

Real Estate Web App

Aug 2025 – Sep 2025

Built with Next.js and MongoDB for property listings and real-estate blogs. User-submitted listings with admin approval, full CRUD for properties and posts, and a separate admin panel with its own credentials.

TECHNICAL SKILLS

Core Languages: Python, JavaScript

ML / Deep Learning: Supervised & unsupervised learning, reinforcement learning, computer vision, NLP

AI/ML Frameworks: PyTorch, Scikit-learn, JAX, LangChain/LangGraph, Transformers

Backend / Frontend: Django, FastAPI - React.js, Next.js

Data: Pandas, NumPy, Matplotlib, Plotly, PostgreSQL, MongoDB

Cloud / DevOps: AWS, Azure, Docker, Kubernetes, Modal.com, Railway, Koyeb, Google cloudrun

Web Scraping: BeautifulSoup, Selenium, Scrapy, playwright

LLM APIs: OpenAI, Claude, Gemini, Hugging Face

CERTIFICATIONS

Microsoft Azure Data Scientist Associate

Microsoft | January 2025

[Verify credential](#)

EDUCATION

Bachelor of Science in Physics

COMSATS University | Islamabad, Pakistan

2018 – 2022
